

NICK JØRGENSEN

Software Engineer

PROFILE

Master's graduate in Computer Science and Engineering with solid experience in **full stack development** and specialization in **artificial intelligence**. I am passionate about **software development**, **cloud technologies**, as well as how these can be used to create real value. As a person, I thrive in interdisciplinary teams with freedom under responsibility and the opportunity to influence projects from idea to execution. I am always **quality-conscious** and take ownership of my work.

EDUCATION

MSc | COMPUTER SCIENCE AND ENGINEERING

Aug 2023 – Sep 2025

Technical University of Denmark (DTU)

BSc | SOFTWARE TECHNOLOGY

Jan 2019 – Jan 2023

Technical University of Denmark (DTU)

BSc | EXCHANGE SEMESTER

Sep 2021 – Jan 2022

Swiss Federal Institute of Technology in Lausanne (EPFL)

WORK EXPERIENCE

FULL STACK DEVELOPER

Jul 2024 – Sep 2025

Kintella

- GraphQL architecture:** Designed and implemented the GraphQL API layer, schemas, server-side resolvers, and client-side queries.
- Full-cycle feature development:** Implemented new features from initial concept and database design through to implementation.
- System integration:** Engineered seamless integrations with external health platforms to synchronize user data across ecosystems.

FRONTEND DEVELOPER

Feb 2023 – Jan 2024

Netcompany

- Frontend development:** Built and maintained responsive user interfaces using React and TypeScript.
- Workflow management:** Utilized Azure DevOps to track sprint progress, manage backlogs, and ensure timely delivery of assigned tasks.

RESEARCH ASSISTANT INTERNSHIP

Technical University of Denmark (DTU)

April 2026 – May 2026

Researching numerous logical frameworks and reporting the findings to Nina Gierasimczuk, an associate professor in the Department of Applied Mathematics and Computer Science at DTU.

NICK JØRGENSEN

Software Engineer

📁 PROJECTS

PERSONAL WEBSITE

Developed a personal website using the following tech stack: **React**, **TypeScript**, **Vite**, **Prisma**, **PostgreSQL**, **Redux**, **Tailwind**.

MASTER'S THESIS

Implemented the MADDPG **reinforcement learning** algorithm and **logic tensor networks** in **Python**. Several ML libraries were used: **PyTorch**, **PettingZoo**, **Gymnasium**, etc.

MULTI-AGENT SYSTEMS

Implemented collaborative, intelligent agents in **Java** at my university. My team **won and award** for a top-10 finish in the final competition.

ANDROID APP

Created an Android app during my studies with **Java** and **Kotlin**. Component development and prototyping was performed in **Figma**.

THIS LATEX TEMPLATE

This LaTeX template was created from scratch by myself.

📁 HOBBIES

EXERCISE AND RUNNING

Wanting to maintain a healthy lifestyle, I weightlift and run regularly.

BOARDGAMES

I love doing fun, social activities in the physical presence of other people.

STUDYING

To me, studying is a leisure activity. In this, I employ intricate setups in both Obsidian and Anki.

📁 PROGRAMMING LANGUAGES

JavaScript TypeScript Python
Java C C++ F# R Prolog
XML

📁 ENVIRONMENTS

Visual Studio NeoVim IntelliJ
Android Studio Overleaf
Matlab Maple Isabelle

🔧 DEVELOPMENT TOOLS

Git GitHub GitLab Slack
Teams Docker LaTeX SSH

📁 AI & MACHINE LEARNING

PyTorch OpenCV WandB
Logic Tensor Networks
PettingZoo Gymnasium
Scikit-learn NumPy Pandas

📁 DATABASE SYSTEMS

SQL NoSQL Blob Storage
MySQL PostgreSQL Redis
Prisma
